SharePoint Projects Delivered

DOCUMENT MANAGEMENT SYSTEM COMPONENTS

Capture &
validation

Indexing, storing &
retrieval

Workflow &
collaboration

Versioning

Security &
distribution

Integration

Document Management System

We are expert in building Document Management System (DMS) in SharePoint. Main functionalities that we have delivered are Synchronizing document libraries with One Drive or windows folder, etc.

We have delivered SharePoint Metadata for the DMS requirement which includes versioning of document, security for whole folder and specific documents. Permissions based on Specific level of organization hierarchy.

Our team has also delivered DMS which contains Integration with CRM, Workflows attached to the DMS system.

SharePoint Projects Delivered

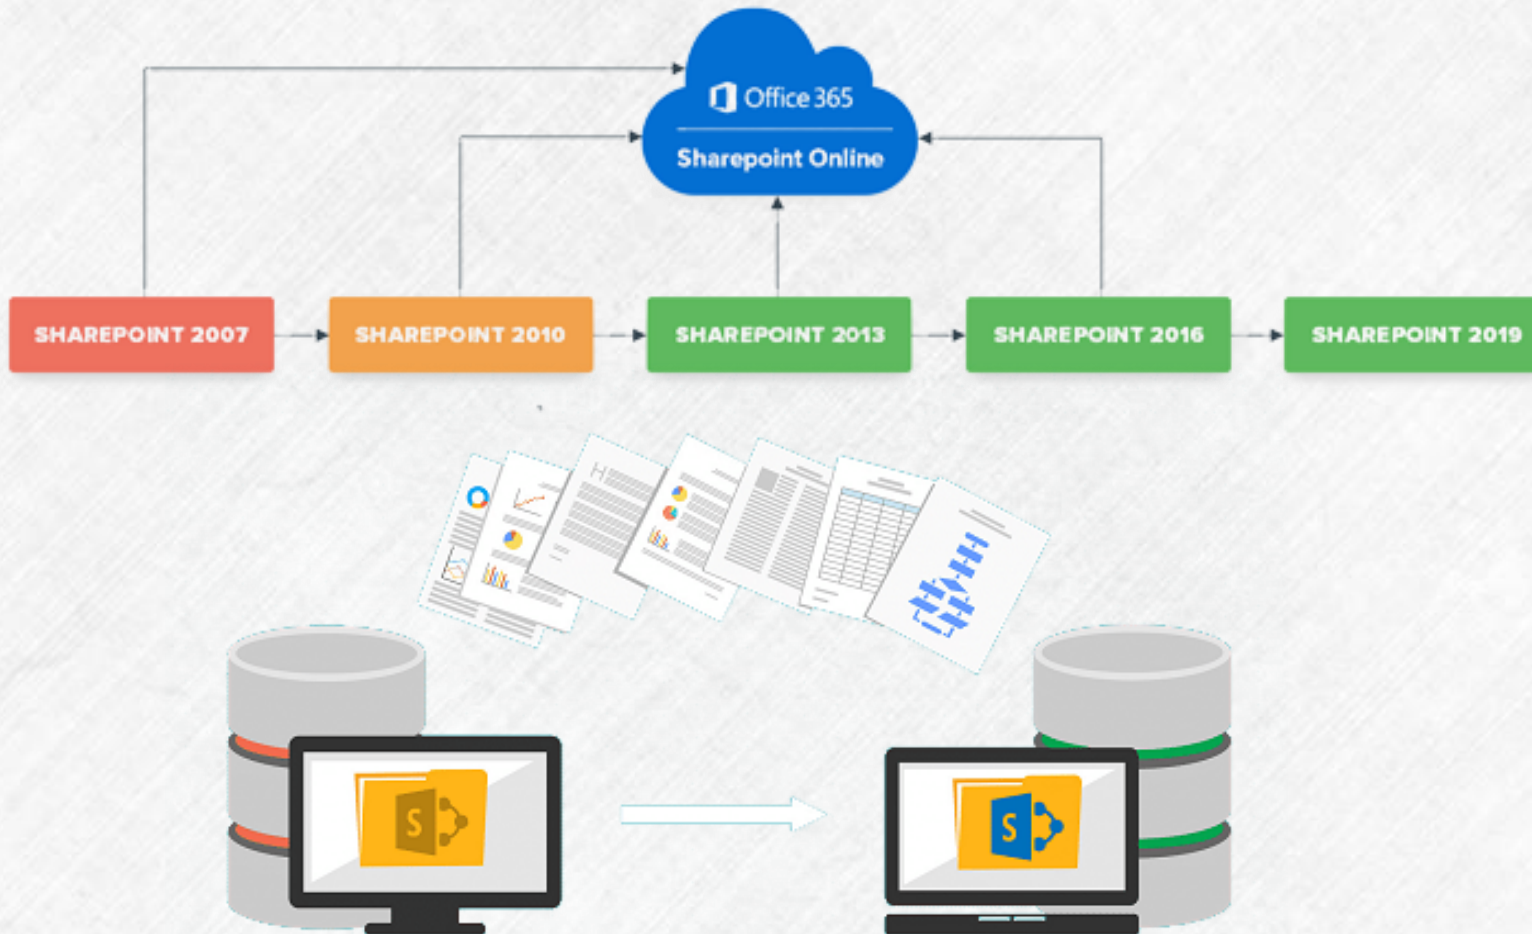

SharePoint Migrations

Our team have delivered many migration projects. We are familiar with tools such as Sharegate, Metalogix etc.

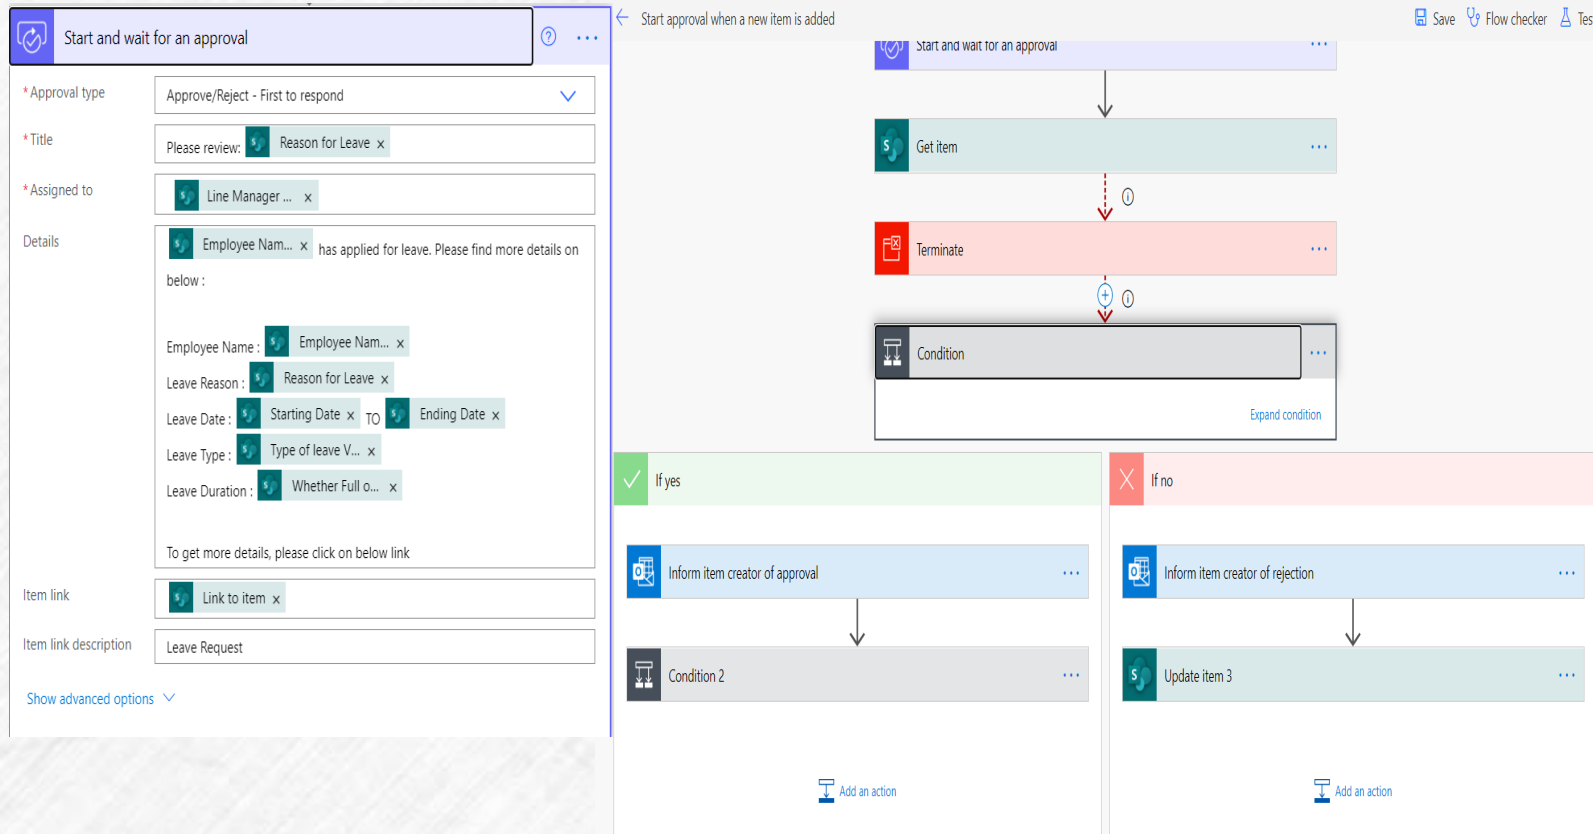

- On premises to on premises
- On Premises to Office 365

Data migrated in many of our Projects:-

- Site Collections
- Permissions
- List and Libraries
- Workflows
- Records
- Users and Groups used
- Large lists or libraries
- Any other UI customizations (JavaScript, altered menus etc.)
- Site Columns
- Sites
- Pages
- Content Types
- User Alerts
- Branding

SharePoint Projects Delivered

Microsoft Flow Projects

1) We create Outlook integrations. We can automate import invoice attachments from Outlook into SharePoint then start the approval process. An automated email notification is then sent to a staffer to review the invoice. We have also automated the payment stage. We have also created similar automation for client tasks, documents, and images.

2) Create the tasks in a tasks list when there is a new task in the MS planner.

3) Integration with Gmail, including moving the attachment into the SharePoint library based on the email subject and label.

4) Implemented reminder notification for assigned tasks using MS Flow.

5) Document publishing approval process.

SharePoint Projects Delivered

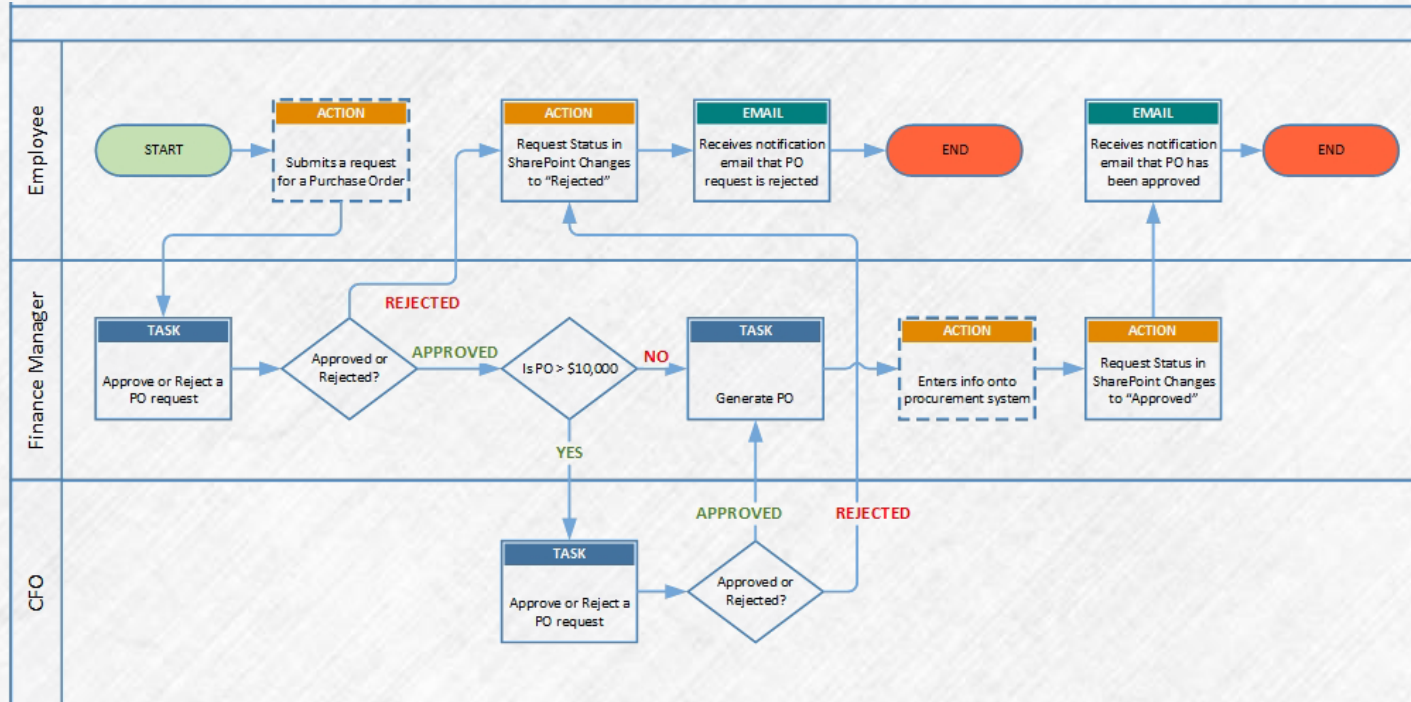

SharePoint Workflows and SharePoint Project Portals

Our team have delivered many Workflow Projects. We are familiar with tools such as SharePoint Designer to create workflows.

- Purchase Portal Workflows
- Loan Management Workflows
- Document Approve reject Workflow
- Invoice Approval Workflows

Our team have delivered many Project Portal Projects such as Department Portal, Client Portal, HR Portal etc. Portals that contains different tabs for different lists of tasks. Active tasks, Late tasks, Upcoming tasks, etc.

Power Automate Projects Delivered

Power Automate Projects screenshots

A login screen for a 'Tool Tracking Application'. It features a blue header bar. Below it, there's a white box with a black border. Underneath, the text 'Tool Tracking Application' is centered. Below that, there are two input fields: one for 'Enter email address here' with an envelope icon, and another for 'Display name' with a person icon. At the bottom, there is a dark blue 'Login' button.

Screen 1

A screenshot of the 'Electrical Data Entry' form. It has a blue header bar with a close button on the left and a back arrow on the right. The form is divided into several sections with input fields and dropdown menus. Fields include: ID, Electrical Load(KW), Motor Load (KW), Supply System Type (Single Phase), System Voltage V(L-L), Power Factor, Demand Factor, Short Circuit Current (KA), Allowable Voltage Drop at Start (%), Allowable voltage drop at Run (%), Motor Lock Rotor Current(A), Motor Starting Power Factor, Cable Type (PVC Flexible Wire/Cable), Cable Conductor (AL), CableSize, No of parallel Run of cable (EA), Cable Length (Mtrs), Cable Installation Media (Ground), Ground Temp(K2), Cable Lay Arrangement (Single tire Horizontal), Dist Between Each Cable (Nil), No of Cable Trench(A), Cable Laying Depth(Mtr), Soil Thermal Resistivity(K-m/W), and SoilNature. There is an 'Activate Go to Settings' button at the bottom right.

Screen 2

A screenshot of the 'Electrical Cable and Voltage Evaluation' form. It has a blue header bar with a back arrow on the left and a forward arrow on the right. The form is divided into two main sections: 'Electrical Load' and 'Cable and Voltage'. The 'Electrical Load' section includes fields for Total Electric Load(KVA), Total Electric Load(KW), Total Full Load Current (A), ElectricLoad Start Current(A), ElectricMotor Start Current(A), Total Starting Current(A), Starting COSφ, Starting SINφ, Running COSφ, and Running SINφ. The 'Cable and Voltage' section includes fields for Conductor Resistance (Ω/km), Conductor Reactance (Mho/km), Cable Current Capacity (A), DeratingCurrA, ReceivEndVolV, AllowVolDrpRunV, AllowVolDrpStrtV, Cable ShortCircuit Capacity(KA), Voltage Drop at Starting (%), and Voltage Drop at Running (%). There is a 'Total Derating Factor' section with fields for GroundTemp Correct Factor, Grouping Factor, Cable Lay Depth Factor, Soil Correction Factor Air, and Total Derating Factor. At the bottom, there are 'Results' and 'Home' buttons, and an 'Activate Go to Settings' button.

Screen 3

Project description -- In this project client needs was to create a Powerapps where we can fill all the details about the Tools.

First Screen 1 – It shows the Login screen where user can enter his email address.

Second Screen 2 – It shows all the columns that users fills in.

Screen 3 – Third screen shows the data that is filled by the user in the form.

Screen 4 – It shows overall data and we can edit the data and do back to the home screen from this screen.

A screenshot of the 'Electrical Cable and Voltage Evaluation' results screen. It has a blue header bar with a back arrow on the left and a close button on the right. The screen is divided into two main sections: 'Voltage Drop' and 'Actions Required For Cable Selection'. The 'Voltage Drop' section includes a list of items: No Of Parallel Run OF Cable, Cable Short Circuit Capacity, Cable Voltage Drop, Cable Type Selection, and Motor Starting Voltage Drop. The 'Actions Required For Cable Selection' section includes a list of items: Increase No of Run of Cable or Select Higher Capacity of Cable, Select Higher Size of Cable to reduce Voltage Drop, Select Proper Size of Cable, and Select Other Type of Motor Starter. At the bottom, there are 'Edit' and 'Home' buttons, and an 'Activate Go to Settings' button.

Screen 4

PowerApps Projects Delivered

PowerApps Projects

We have expertise working on Power Automate projects.

- We have done PowerApps and SharePoint Integration where we have created various applications as well as Customized forms in PowerApps for SharePoint list
- Developed PowerApps with source as the Excel sheet in PowerApps
- Created Applications which are Capable of sending an Email within the PowerApps
- Created Custom Connector in Power Apps to save the PenInput and camera control Images in SharePoint as Item attachment, Document, or Email Attachment
- Send an Email from the PowerApps, Send a Meeting Invite. Also Integrated the Power Apps with Microsoft Flow to perform the Approval Process, Notifications etc.

PowerBI Projects Delivered

Dashboard for Sales Analysis

This Dashboard is developed using Power BI for sales analysis

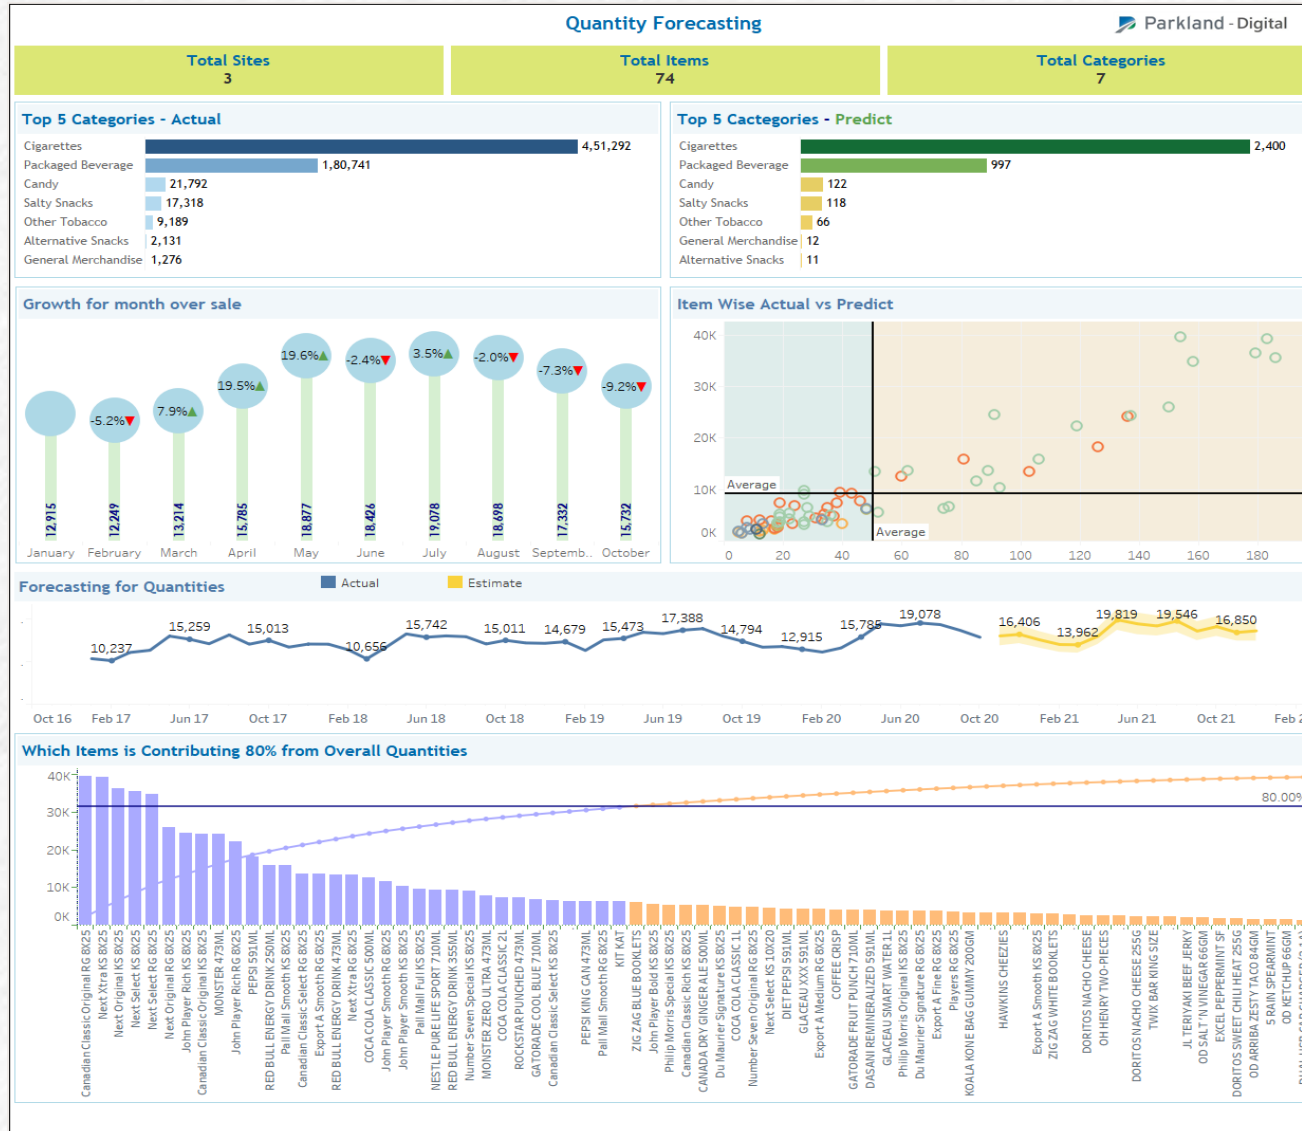

It Helps to improve analysis for sales and products.

It shows count of orders by customers.

It shows sales statistics detail like total revenue, new join customers, completion rate , etc.

Can search by product and customer

Tableau Projects Delivered

Dashboard for Quantity Forecasting Version 1

The Data has the prediction value of sales for the coming month calculated using Machine learning model and then loaded in the Warehouse (Redshift).

The First level in the dashboard shows the static overall Information like Total Sites, Total Items in overall sites and Total types of Categories.

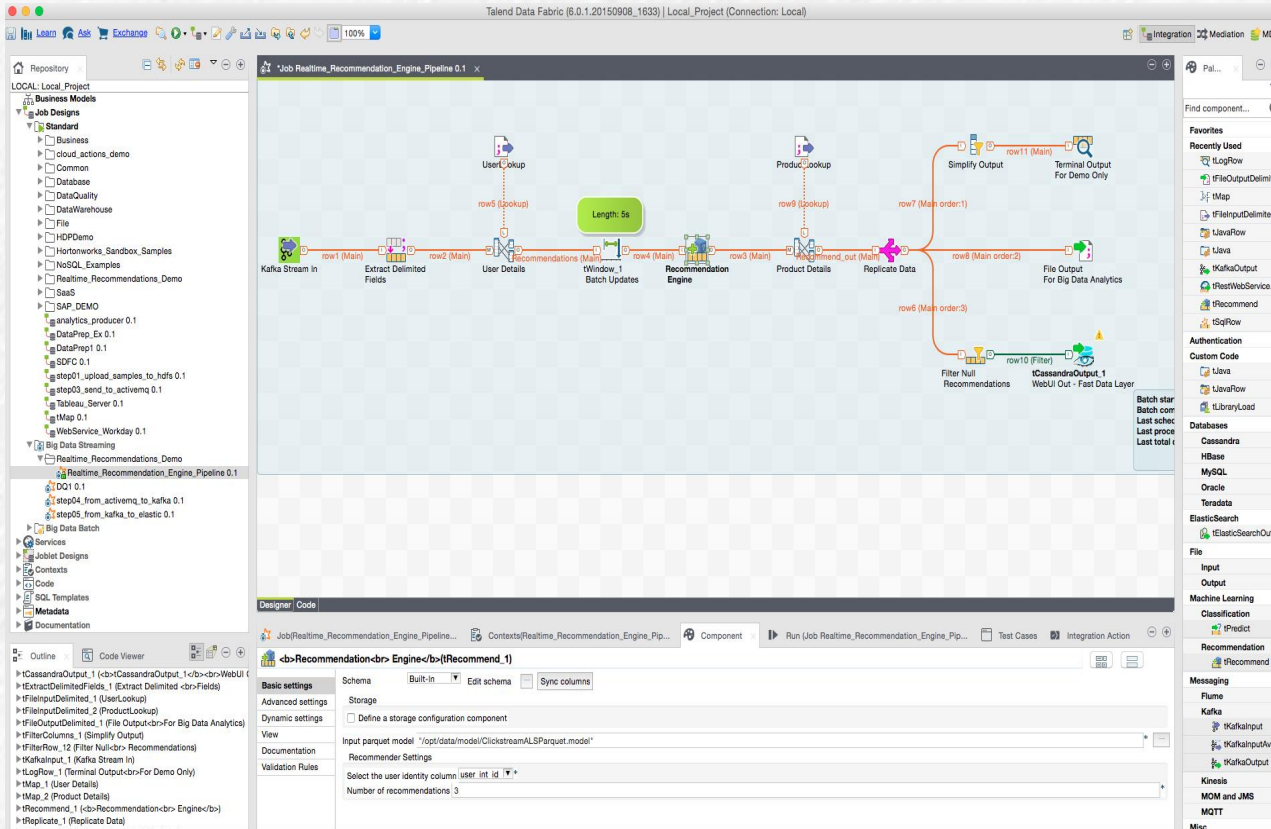

The 2nd level shows the Top 5 and Bottom 5 Categories (Actual Value vs Predicted Value)

Growth for month over sales session i.e. Lollipop charts show month on month sales value and also their growth w.r.t previous month

ETL Talend Projects Delivered

TOS Screen

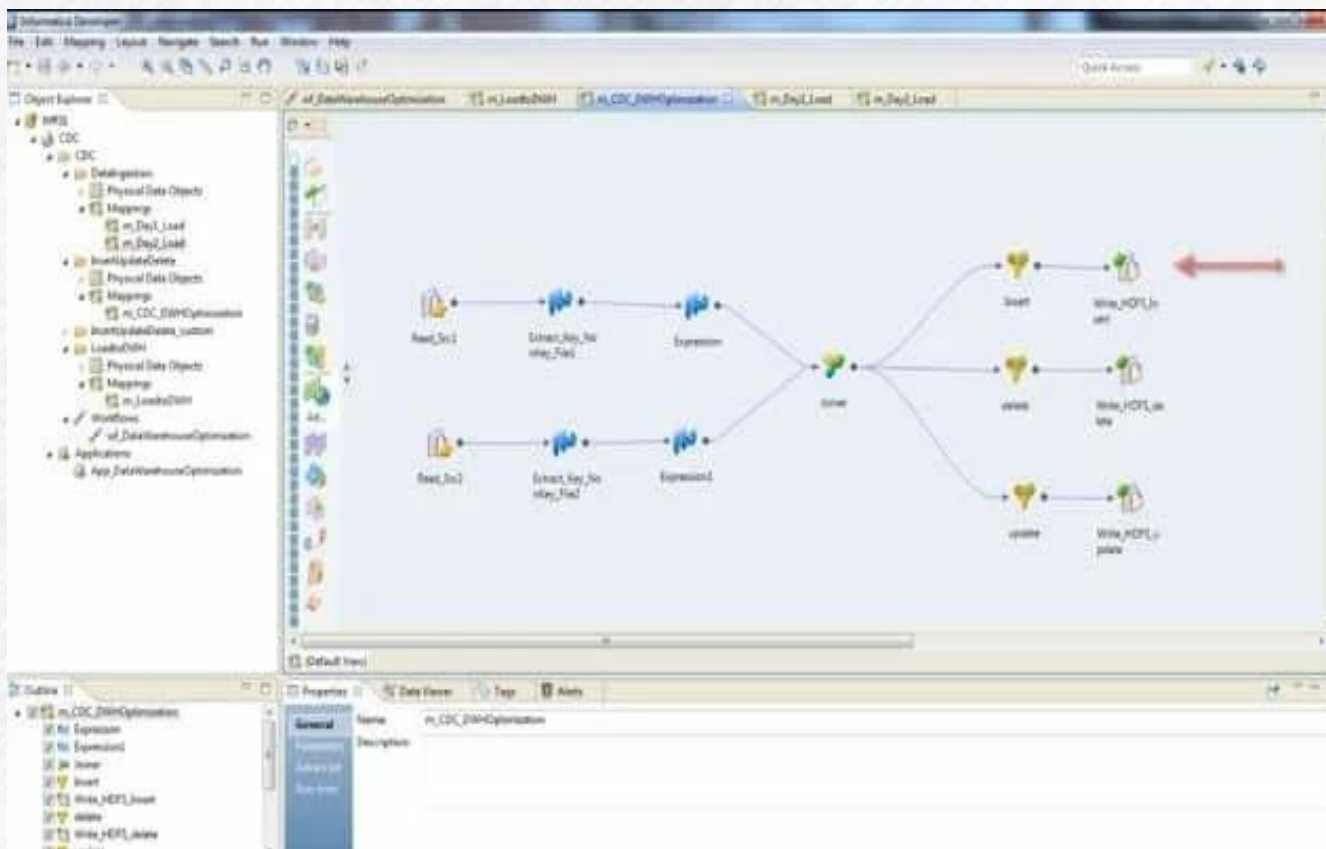

In this Project we were responsible for identifying and defining Data Source & Data Source views mappings for ETL.

Developed, deployed and monitored SSIS Packages for new ETL Processes and upgraded the existing DTS packages to SSIS for the on-going ETL Processes.

Monitored Full/Incremental/Daily Loads & support all scheduled ETL jobs for processing.

Involved in analysis, design documentation, gathering requirement & maintaining good documentation.

ETL Informatica Projects Delivered

Informatica Screen

- In this project we worked on extracting data from sales force ERP Accounts object.
- Communicate with Business to understand the requirement.
- Made use of Transformer, Aggregator, Sort, filter, copy, salesforce connector and sequential file stages to build job.
- Worked with Autosys team to set up file transfer jobs to BW folder.
- Worked with BW team to unit test the requirement.
- Communicated with business regarding filter changes.
- Created shell script to schedule job through Autosys. Created change tickets.

Our Capabilities in Oracle

8 Oracle Pillar Specialization

- Customer Experience
- Finance
- Supply Chain Management
- Human Capital Management
- Enterprise Performance Management
- Analytics and Extensions

Range of Services

- Business Consulting
- Implementation
- Enhancement
- Upgrade
- Migration
- Rollout
- Support
- Managed Services

Oracle Modules

1. Finance
2. Procurement
3. Manufacturing
4. Inventory Management
5. Order Management
6. Warehouse Management
7. Supply Chain Management
8. Customer Relationship Management (CRM)
9. Professional Services Automation (Service Resource Management)
10. Workforce Management
11. Human Resources Management
12. Ecommerce
13. Marketing Automation

Salesforce Projects Delivered

Great expertise on

The screenshot shows the Salesforce interface for an Opportunity named "Acme - 1250 Widgets". The page is divided into several sections:

- Delivery Status:** A section with a "Asana" filter and a "Create New Task" button. It displays a table of Asana tasks connected to this opportunity.
- Asana tasks connected to this opportunity (3):** A table with columns: Name, Project, Status, Due Date, and Assigned To.
- Asana projects connected to this opportunity (1):** A section with a "Connect Project" button. It displays a table of Asana projects connected to this opportunity.
- Stage History (2):** A section showing the history of stages for this opportunity.

Name	Project	Status	Due Date	Assigned To
Send assets to ACME legal team	Acme - 1250 Widgets CS I...	Incomplete	2/22/19	Sally Sanderson
Provide details on security certifications	Acme - 1250 Widgets CS I...	Incomplete	2/20/19	Jonathan Swift
Schedule integration demo	Acme Widgets Pre-Sales Re...	✓ Completed	2/16/19	Jonathan Swift

Name	Project Status	Task Progress	Project Owner
Acme - 1250 Widgets CS Pre-Sales	On Track	78%	Sally Sanderson
Acme - 1250 Widgets CS Post-Sales	At Risk	16%	Sally Sanderson

Stage History (2)

Stage	Amount	Probability (%)	Expected Revenue	Close Date	Last Modified
Prospecting	\$3,500,000.00	10%	\$350,000.00	4/10/2019	Tim Yang
Prospecting	\$150,000.00	10%	\$15,000.00	4/10/2019	Tim Yang

- Visualforce, Lightning component (Aura framework)
- APEX Classes and Triggers
- Integration using Rest API/SOAP API
- Sales Cloud and Service Cloud
- Salesforce Communities
- Pardot
- Data Management and Data Security
- Process Automation (Lightning Process builder, Lightning Flow, Workflow, etc...)

Mobile App Development

Ionic Apps

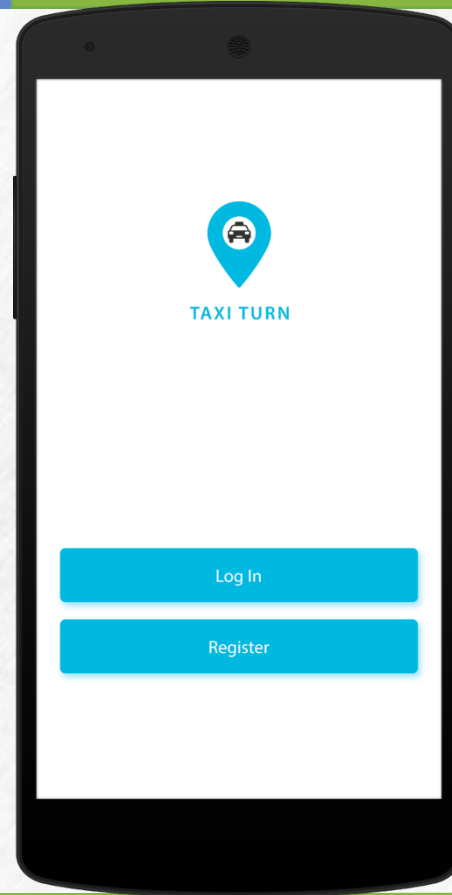

Tools :

Taxi Turn

Taxi turn is basic uber like app for Ride booking, tracking with GPS enablement technology.

Top-notch taxi service app that has created a fervor among the users of cab service.

Basic Prototype link:- Taxi Turn project

Client Testimonials

Real pleasure consulting with Ravi & Team Epicbliss to set up our company's entire Sharepoint intranet and portal. We will definitely be reaching out to team for future work to be done. - Rachelle Glaccer **(USA)**

Overall Epicbliss delivered quality work. They have top-notch work ethics and a winning attitude. We recognize and appreciate your dedicated efforts. Thank you. - Stephen Pean **(Canada)**

A+++ . Very easy to work with and professional team Epicbliss - Archie Patterson **(Australia)**

Ravi and team pack in terabytes of SharePoint and BI wisdom :-) Are very clear in communication and can provide one-stop solution for everything SharePoint, database, data analytics or BI. Look forward to working with them in future as well. - Marco **(Germany)**
