- **BI & Analytics Tools** – Power BI, Tableau, Looker, QlikView, Pentaho
- **ETL & Data Integration** – Talend, Informatica, SQL, Pentaho Data Integration (PDI)
- **Salesforce Development** – Visualforce, Lightning Components (Aura Framework), Apex, Sales Cloud, Service Cloud
- **Mobile App Development** – iOS, Android, Flutter, Swift
- **Oracle Cloud Solutions** – Financials Cloud, Project Portfolio Management, EPM, HCM, CX Cloud, SCM Cloud
- **RPA Technologies** – PAD, Automation Anywhere, UiPath Development

At Epicbliss, our team of **25+ highly** skilled developers brings deep expertise across a wide range of modern technologies,

Our capabilities in pentaho

At Epicbliss, we unlock the full potential of Pentaho to integrate, transform, and analyze enterprise data — enabling organizations to make data-driven decisions with secure, scalable, and end-to-end BI and ETL solutions.

Our Pentaho Capabilities Include:

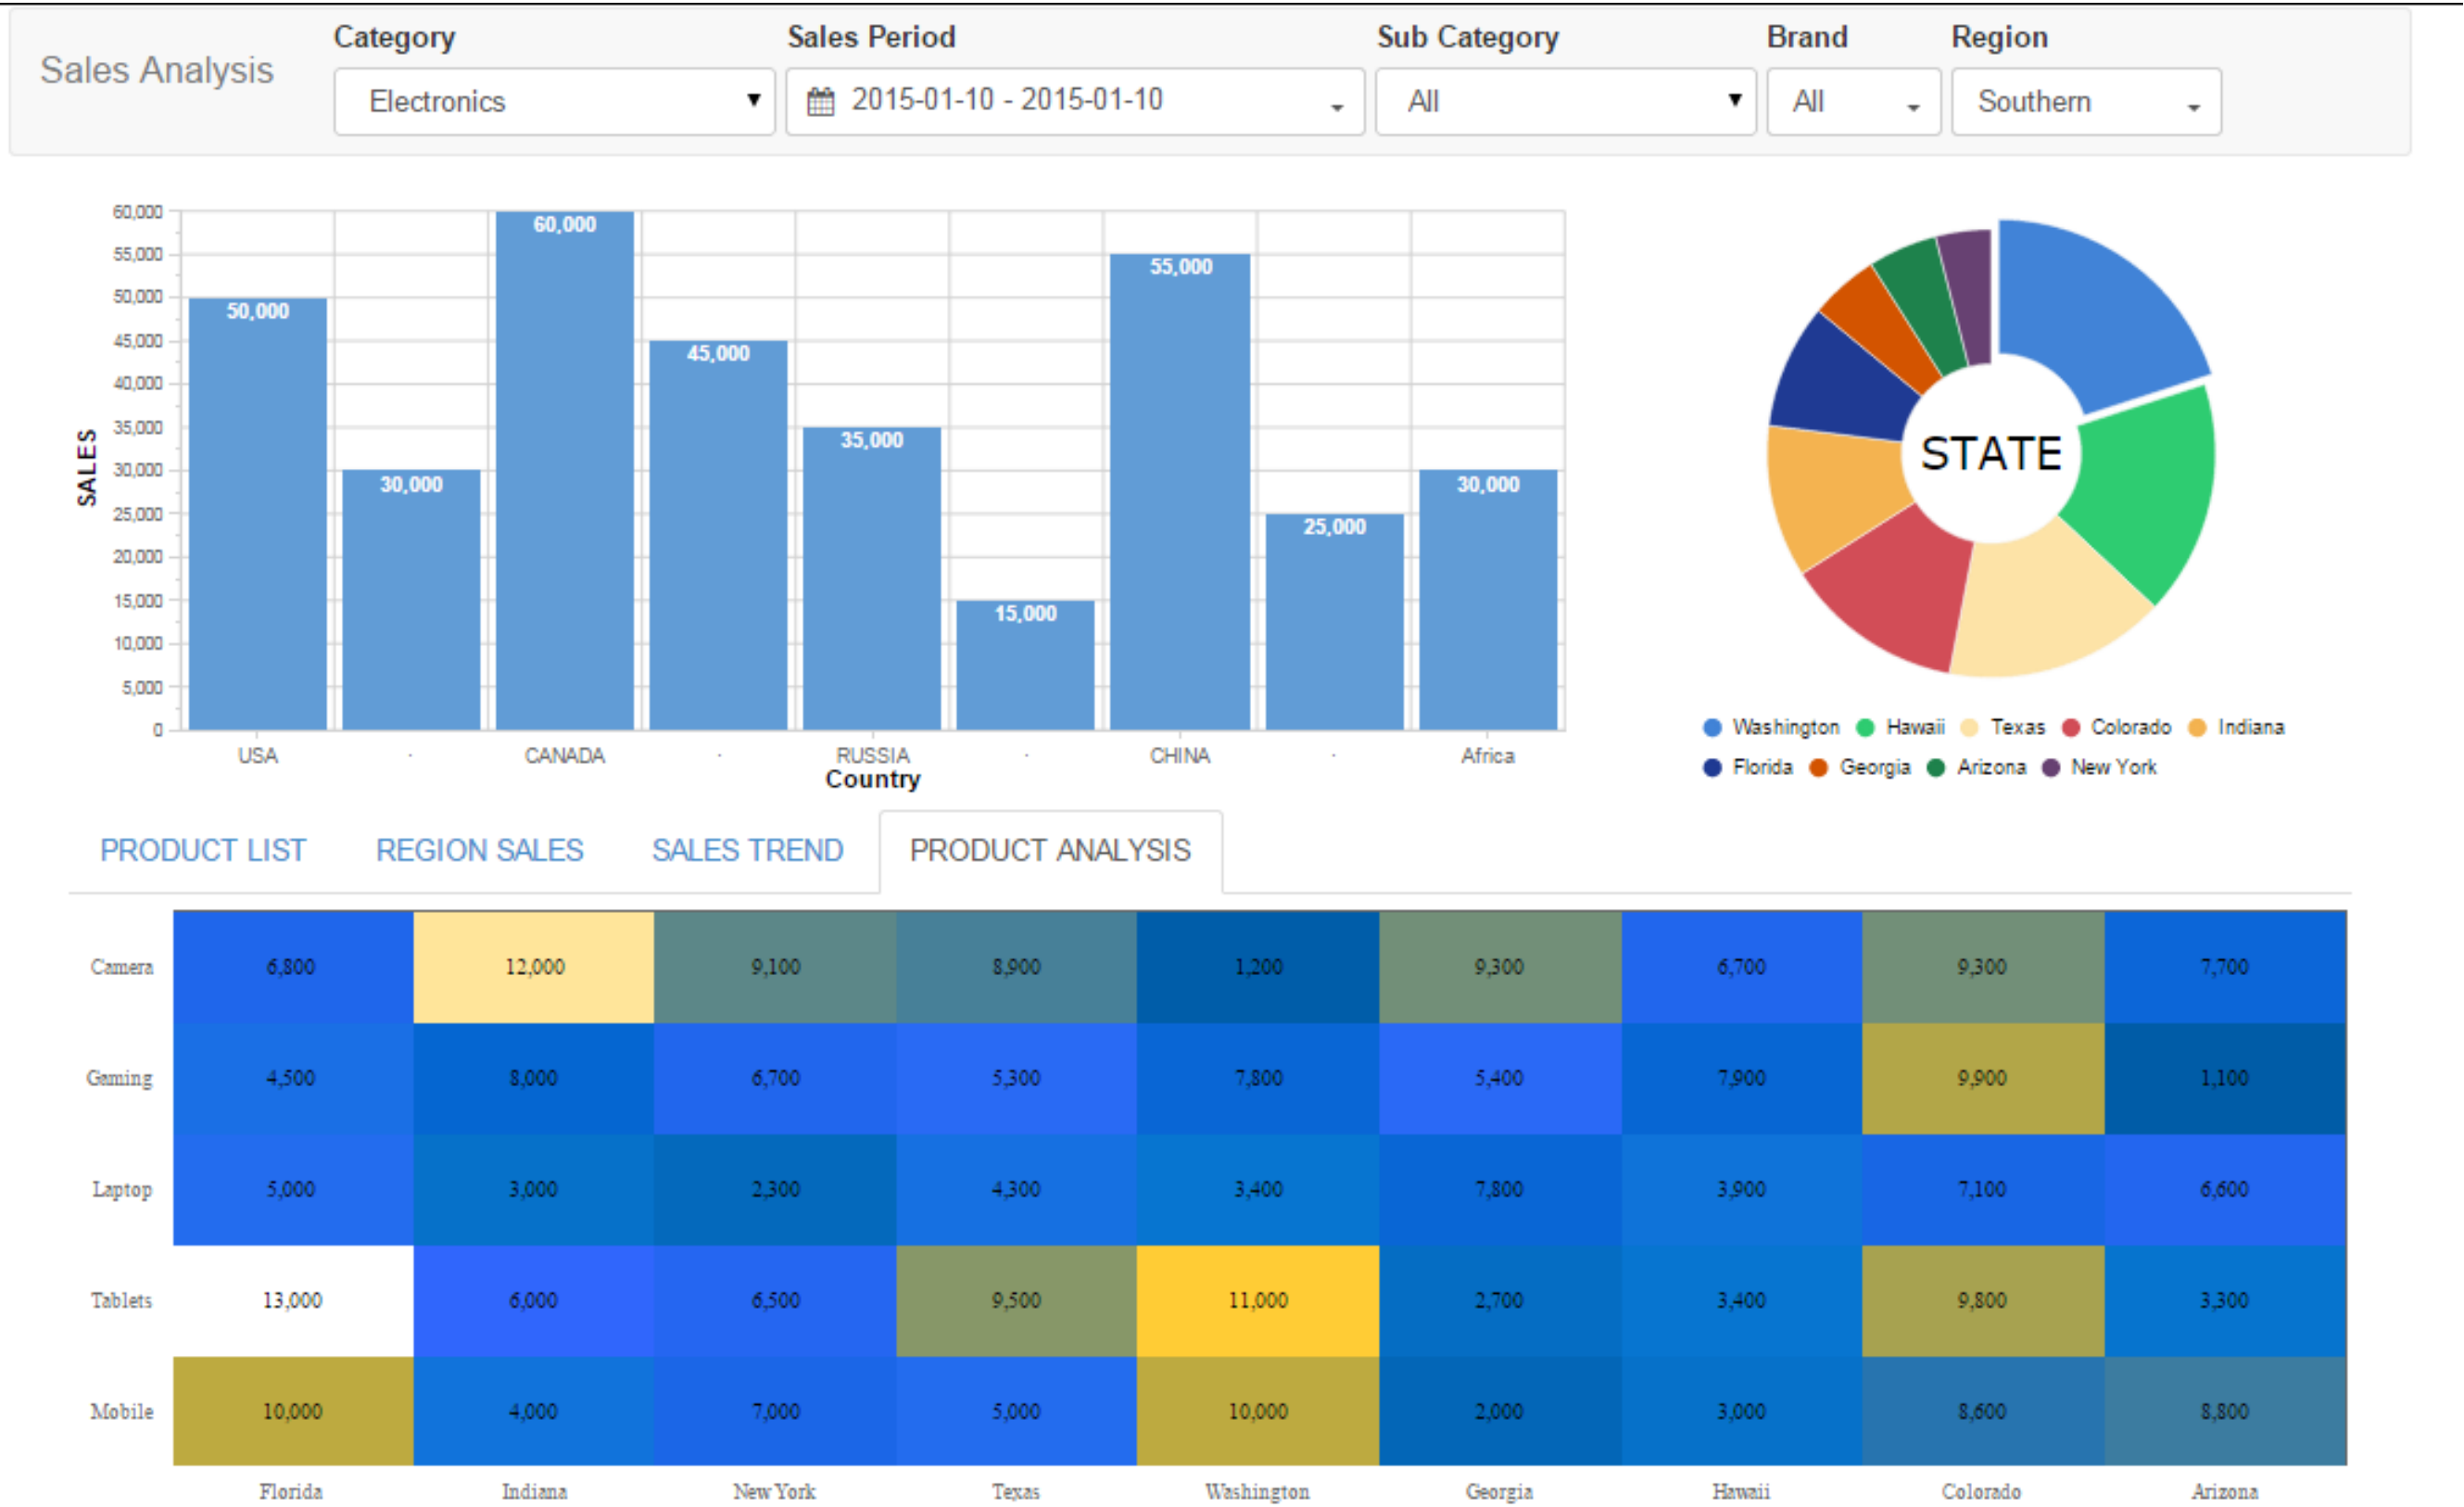

-  **Data Integration (ETL)** – Designed and implemented complex ETL pipelines using Pentaho Data Integration (PDI) to extract, transform, and load data from multiple sources
-  **Advanced Analytics & Reporting** – Delivered interactive dashboards and analytical reports for actionable insights using Pentaho Business Analytics
-  **Workflow Automation** – Automated data ingestion, cleansing, and processing workflows to ensure timely and accurate data availability
-  **Seamless Data Connectivity** – Connected with diverse data sources including SQL/NoSQL databases, cloud storage, APIs, and big data platforms like Hadoop and Spark
-  **Secure & Compliant BI Solutions** – Applied role-based access control and auditing to protect sensitive business information
-  **Predictive & Advanced Data Insights** – Integrated Pentaho with AI/ML models to drive forecasting and predictive analytics for smarter decision-making
-  **On-Premise & Cloud Deployment** – Delivered Pentaho solutions across hybrid architectures to meet evolving enterprise needs

Empower your data journey with Epicbliss — where integration meets intelligence through Pentaho.

Our Awards

Certificates

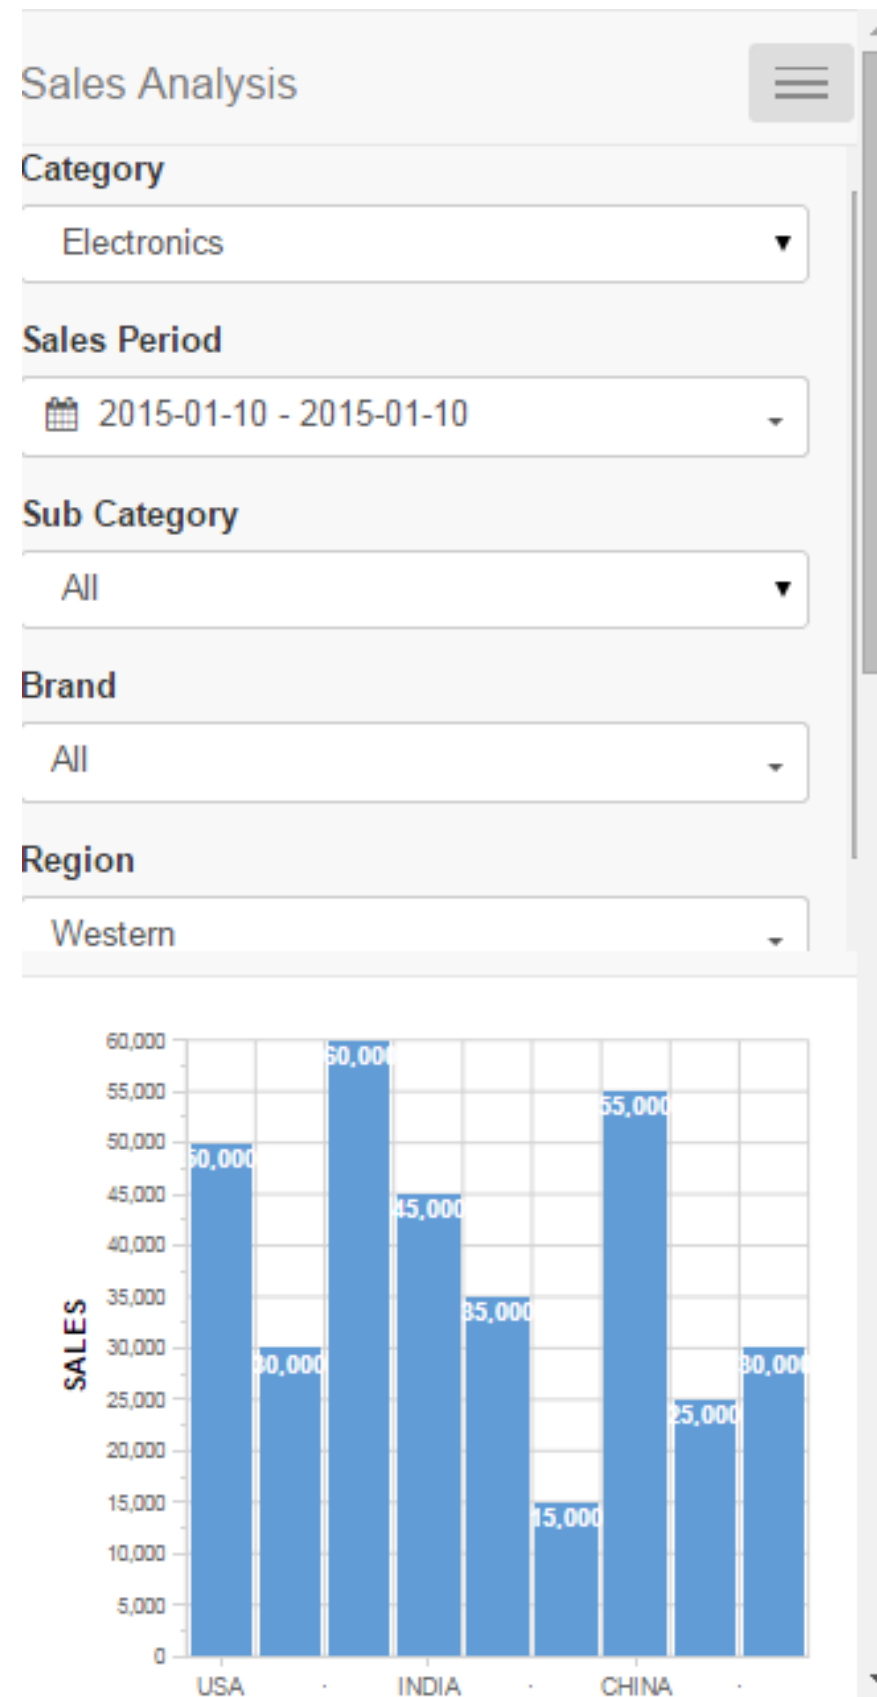

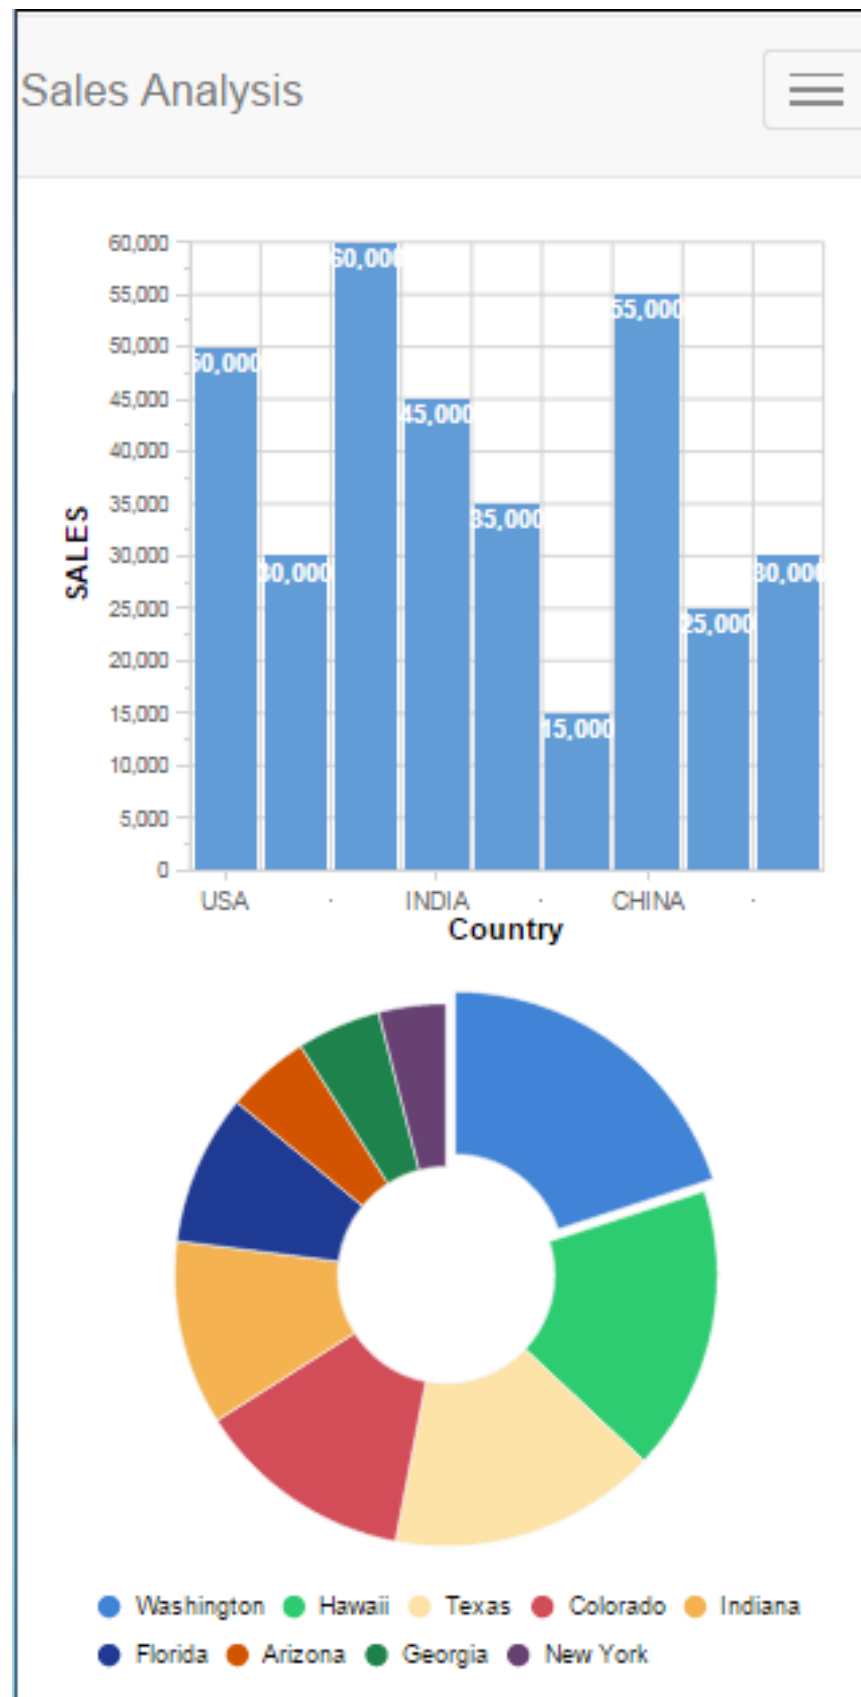

Product Sales Analysis Heat Grid Description:

- Displays city-wise product sales analysis using a heat grid.
- Protovis chart customized to support additional external functionalities.
- Multiple dashboards embedded within the existing application.
- Token-based authentication implemented via AJAX calls for secure access.

Pentaho Projects Delivered

Mobile Sales Dashboard – Pentaho & D3.js

Tools & Technologies:

- Pentaho CE (C*Tools), PDI, Cube, Java, jQuery, D3.js
- Back End: MS SQL 2012 with OLAP Schema

Description:

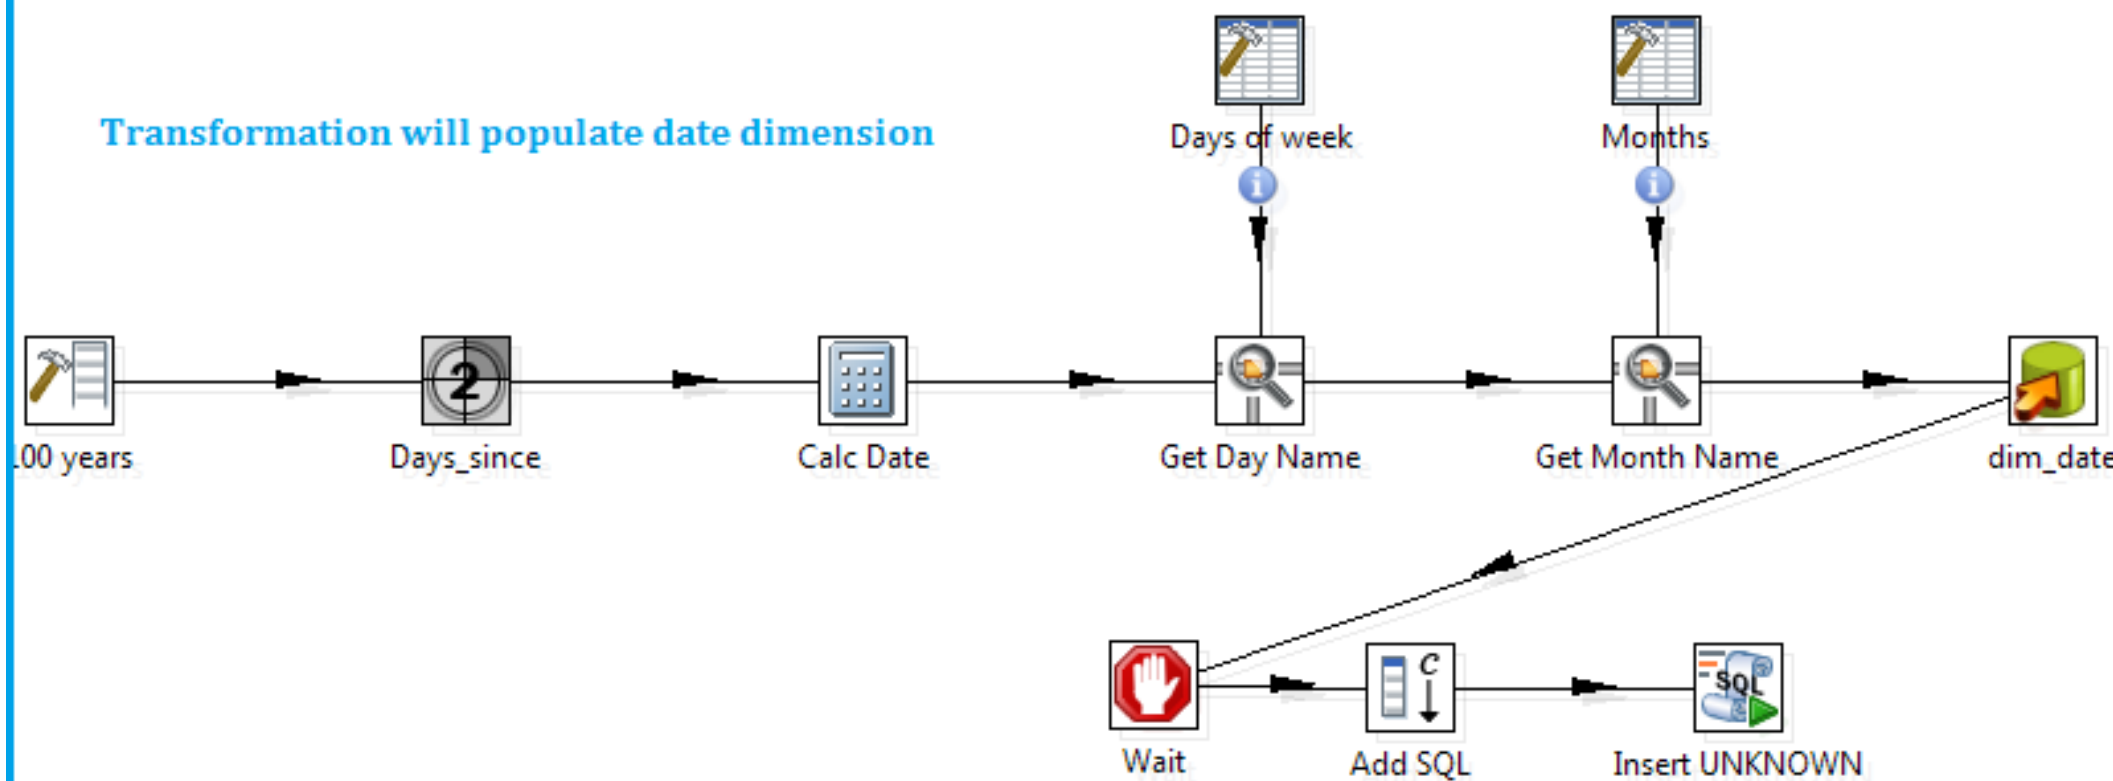

- Developed mobile-friendly sales dashboards with charts optimized for all device sizes.
- Dockable filter panel for an enhanced and flexible chart viewing experience.
- D3.js integrated with Pentaho CDE to generate interactive and visually appealing dashboards.

✓ Result: Delivered eye-catching, responsive dashboards providing accessible sales insights across devices.

Pentaho Projects Delivered

Transformation will populate date dimension

⚙️ Clustered ETL & Data Mart Population – Pentaho & MS SQL

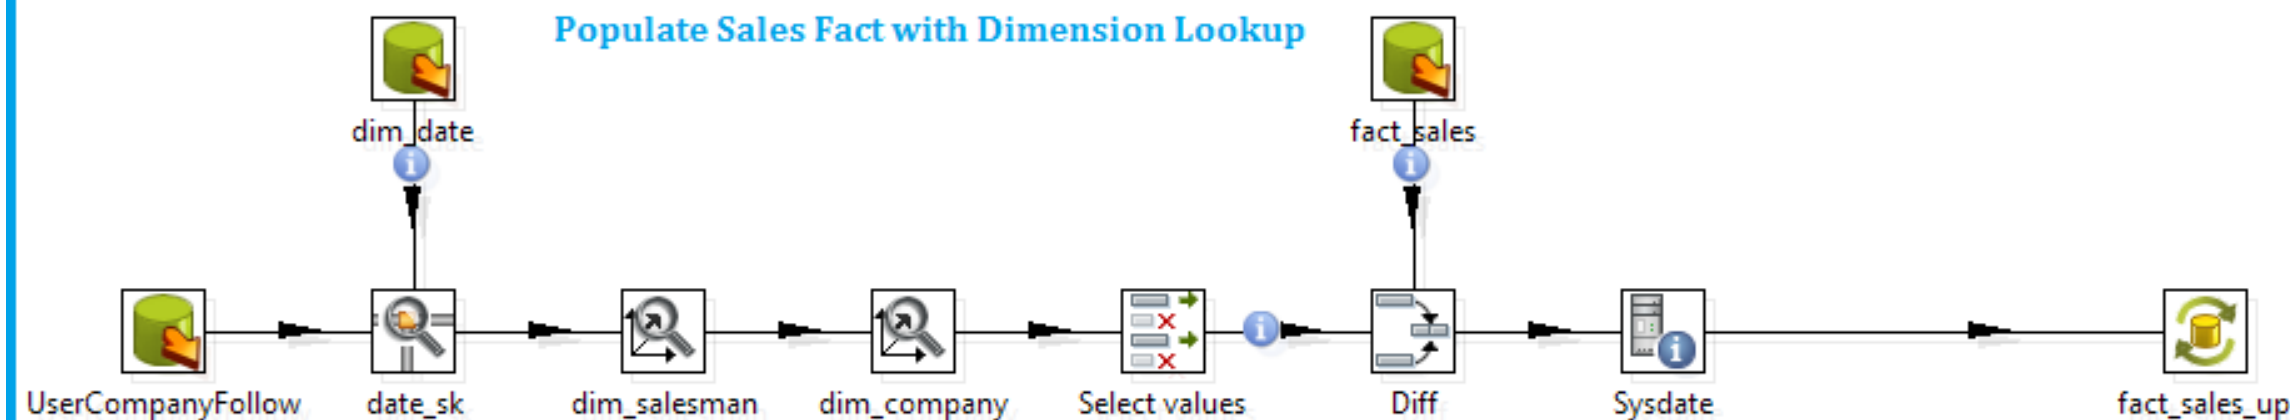

✂️ Tools & Technologies:

- Pentaho CE (C*Tools), PDI, Cube, Java, jQuery, D3.js
- Back End: MS SQL 2012 with OLAP Schema

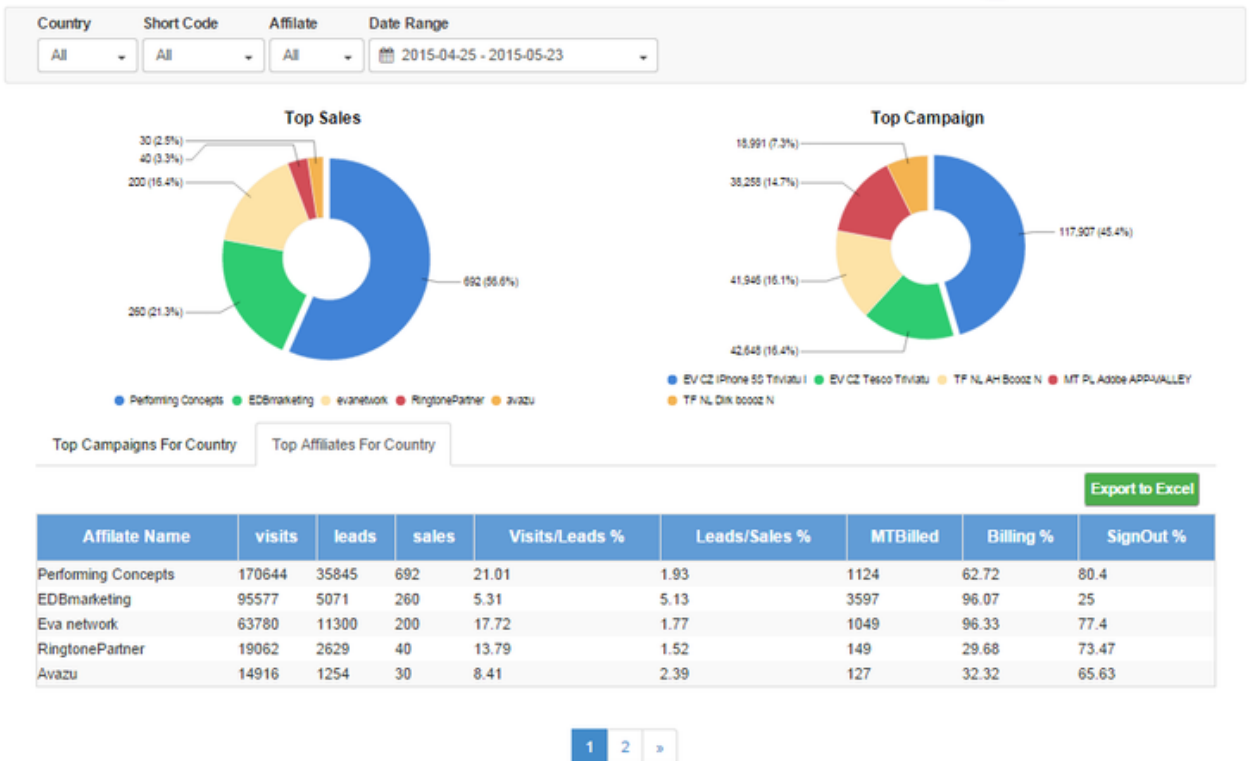

📌 Description:

- ⚡ Implemented a clustered ETL with parallel data processing to populate a data mart.
- 📊 ETL integrated with logging, monitoring, and email notifications for job success or failure.
- 📅 Date dimensions populated using Kettle steps before fact table processing.
- 📊 Fact tables populated after dimensions, ensuring data integrity and optimized reporting.

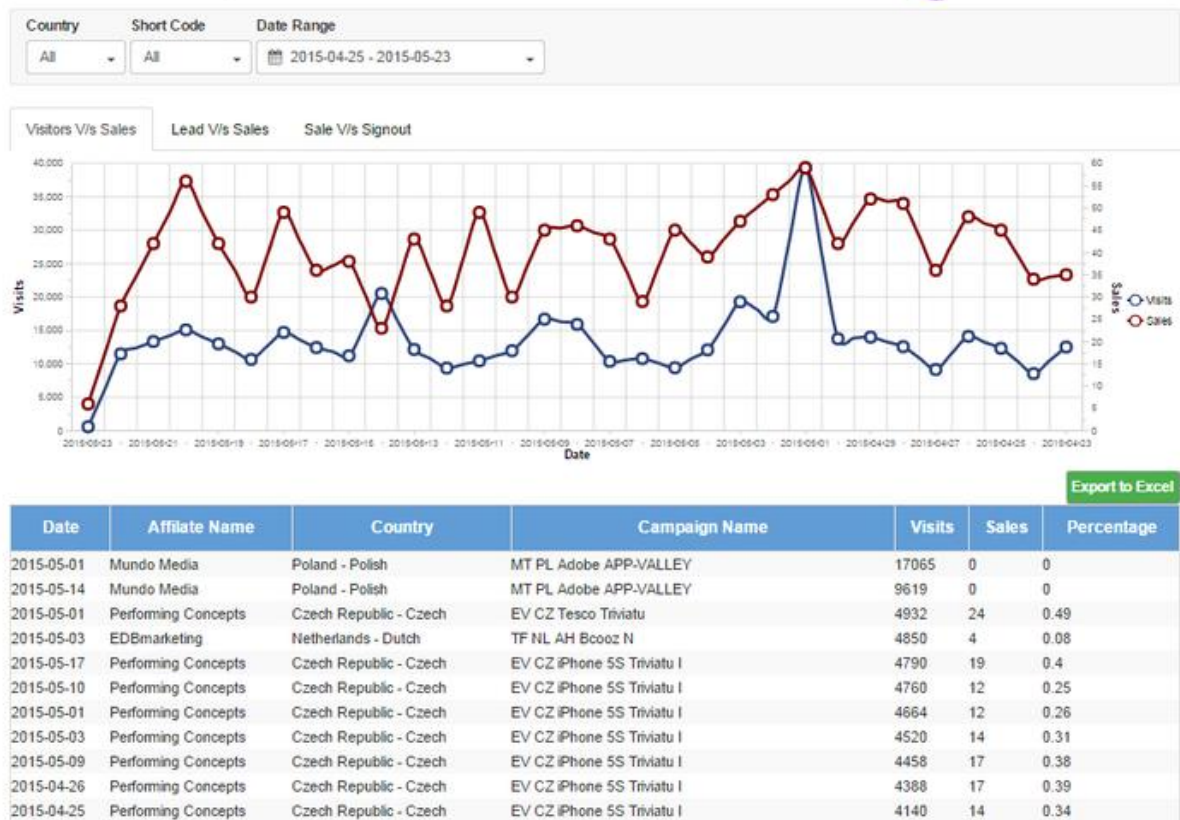

Populate Sales Fact with Dimension Lookup

Campaign Analysis

Sales Analysis

Online Marketing & Campaign Analysis – Pentaho & HP Vertica

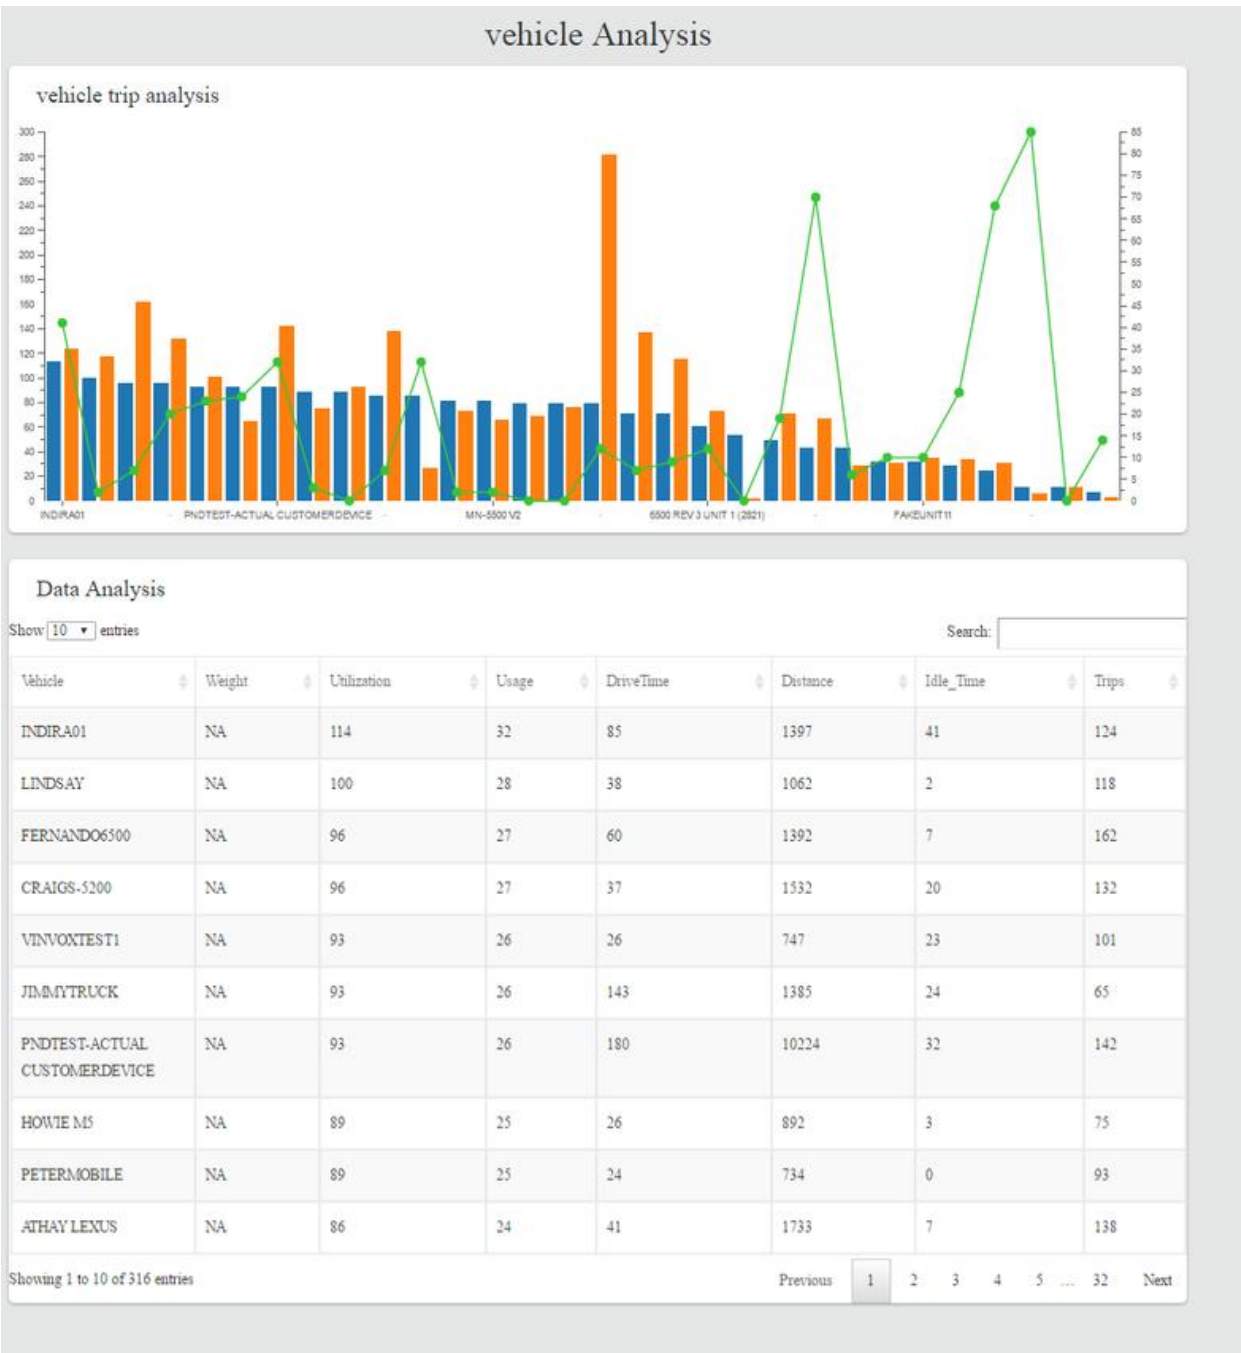

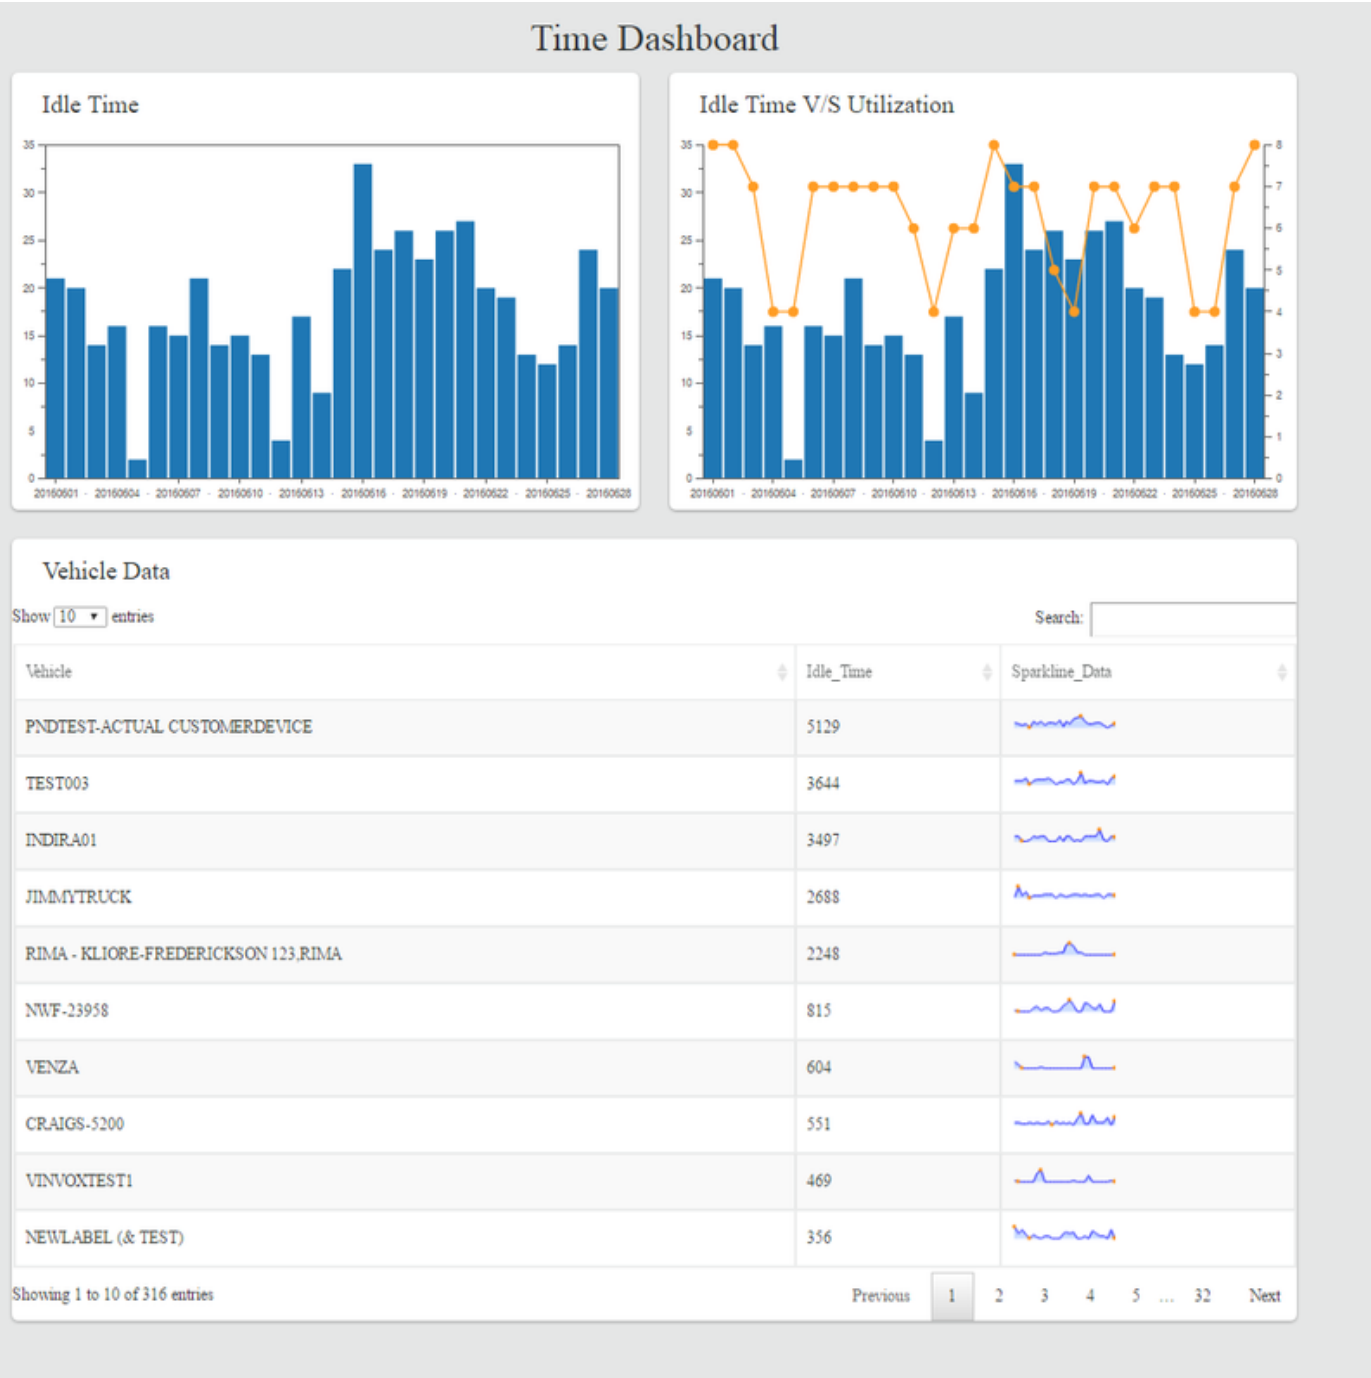

Tools & Technologies:

- Pentaho CE (C*Tools), PDI, Cube, Java, jQuery
- Database: HP Vertica (Centralized Data Mart)
- Data Sources: SugarCRM & Flat Files

Description:

- Created a centralized data mart in HP Vertica, populated using PDI from SugarCRM and flat files.
- Analyzed user behavior to enable targeted email campaigns.
- Developed Campaign Analysis and Sales Analysis Dashboards, embedded within the client's existing application.
- Enabled fast and interactive analytics on large datasets for online marketing and advertisement insights.

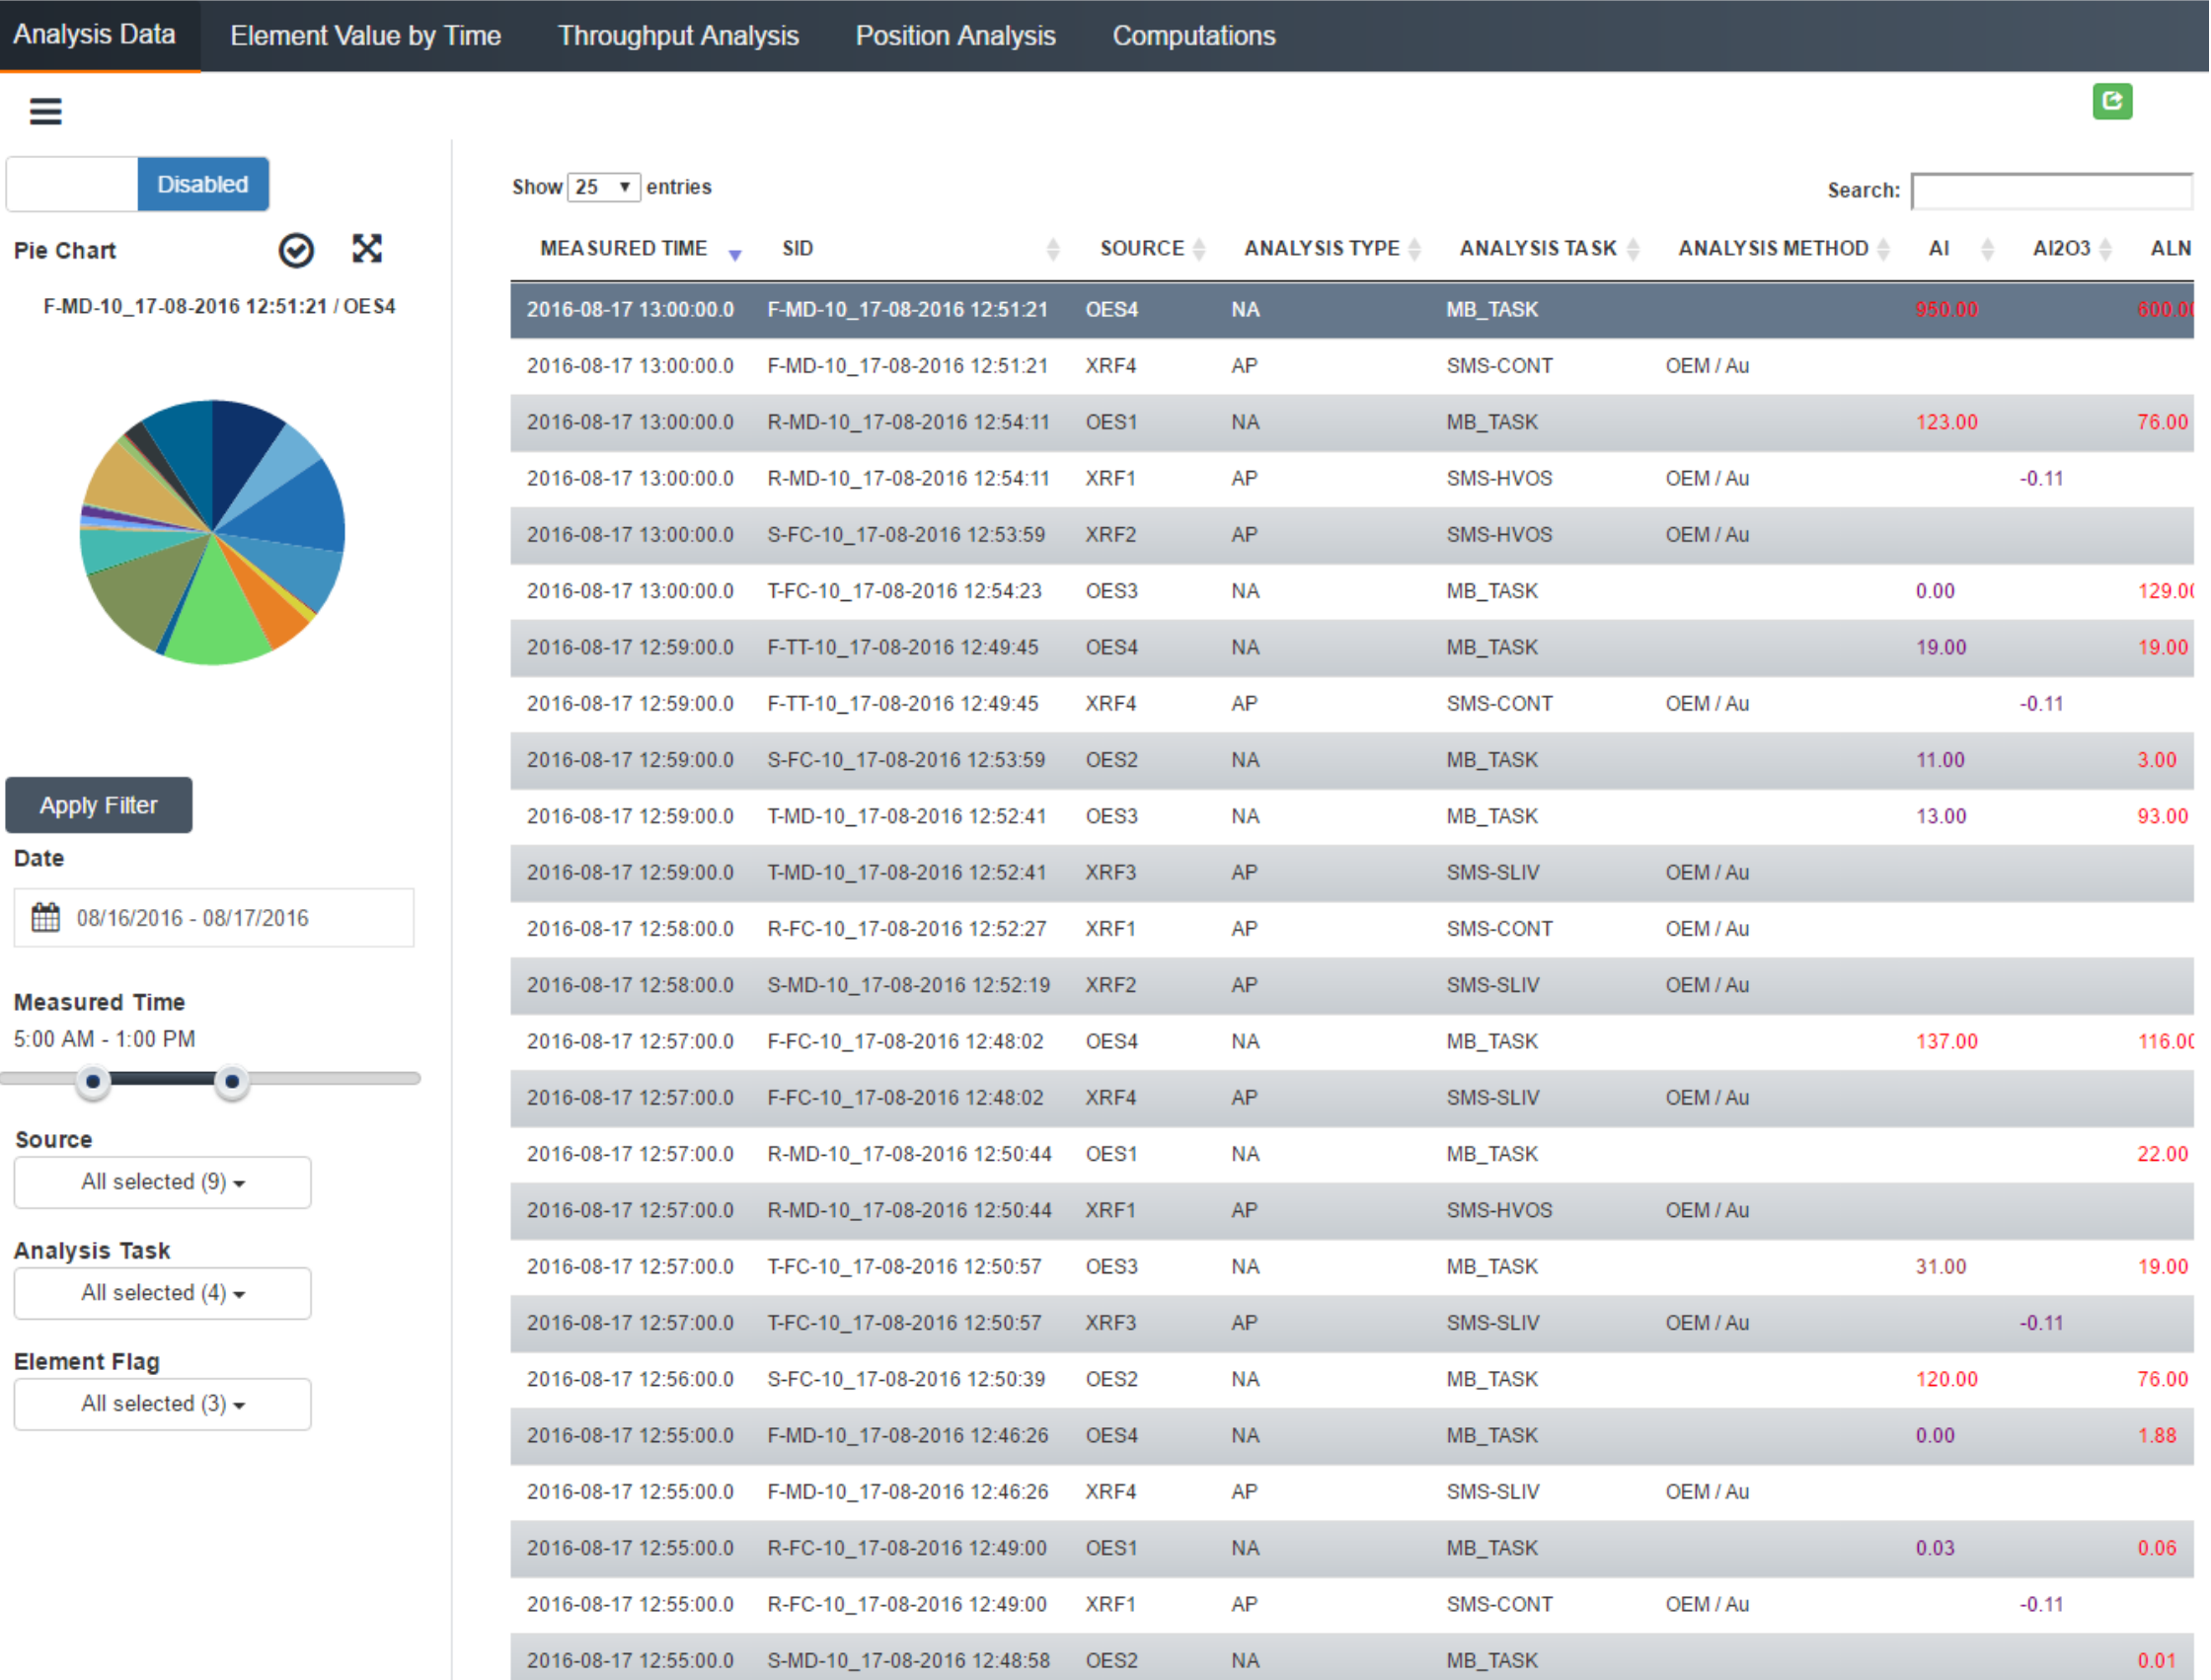

Vehicle Analysis Dashboard – Pentaho BI

Description:

- This dashboard was developed using Pentaho BI to provide vehicle performance and analytics insights.
- Data Source: MySQL database for real-time and historical vehicle data analysis.

 Result: Delivered a centralized and interactive dashboard for efficient vehicle monitoring and analysis.

Data Analytics – Turning Data into Insights

Data Analytics involves collecting, processing, and analyzing data to uncover patterns, trends, and actionable insights that drive smarter business decisions.

- ◆ **Key Aspects:**
 -  **Data Collection & Cleaning** – Ensuring accurate and reliable datasets
 -  **Descriptive Analytics** – Understanding historical trends and patterns
 -  **Predictive Analytics** – Forecasting future outcomes using ML models
 -  **Prescriptive Analytics** – Recommending actions for optimal results

✓ **Goal:** Transform raw data into business intelligence that enhances efficiency, strategy, and decision-making.

Client Testimonials

- Real pleasure consulting with Ravi & Team Epicbliss to set up our company's entire SharePoint Intranet and portal. We will definitely be reaching out to team for future work to be done. - **Rachelle Glaccer (USA)**
- Overall Epicbliss delivered quality work. They have top-notch work ethics and a winning attitude. We recognize and appreciate your dedicated efforts. Thank you. - **Stephen Pean (Canada)**
- A+++. Very easy to work with and professional team Epicbliss - **Archie Patterson (Australia)**
- Ravi and team pack in terabytes of SharePoint and BI wisdom :-)
Are very clear in communication and can provide one-stop solution for everything SharePoint, database, data analytics or BI.
Look forward to working with them in future as well.
- **Marco (Germany)**
